over 10,500 participants. One of the chats was between STRANGE (using the display name "New Kne" and Telegram ID 2095486484) and an individual with the display name "Garfield" with Telegram ID 1232035356 (GARFIELD), from October 14, 2021 and January 5, 2022. Within the chat, STRANGE expressed concerns about WOLF's arrest. STRANGE informs GARFIELD that he deleted content from his phone and might delete his Snapchat accounts. STRANGE indicated that he deleted his "treasure trove of treats." GARFIELD saved all of STRANGE's files in case he ever needs or wants anything back. On later dates, STRANGE and GARFIELD exchanged over 8,585 messages, to include hundreds of image and video files. The nature of the chat was to discuss and trade child pornography, described below:

- 20 videos contained minor boys engaged in sexual activity, to include anal sex, oral sex, masturbation, and exposing their genitals. Of these files, 14 were screen recordings from Snapchat of minor boys masturbating. Nine of the Snapchat videos were of identified victim, [REDACTED] was previously identified as a victim in this case and was a student of ANDREW WOLF, who is a co-conspirator to STRANGE.
- 28 images contained minor boys engaged in sexual activity, to include anal sex, oral sex, masturbation, and exposing their genitals.

Within the chat with GARFIELD, there were also 216 files of child erotica, to include 72 videos and 144 images. The files of child erotica contained what appear to be minors, engaged in sexual activity, to include anal sex, oral sex, masturbation, and exposing their genitals, but the age could not be determined. Although the boys depicted in these files appear to be young, it is unclear if they are minors. The other files of child erotica include depictions of minors boys intended to illicit sexual fantasy, such as minors clothed or semi-nude without visible genitals. Many of the files of child erotica were screen recordings from Snapchat.

The phone contained a total of at least 280 images and 60 videos of CP. The CP files contained minor boys engaged in sexual activity, to include anal sex, oral sex, masturbation, and exposing their genitals. Although the specific age of the minors boys could not be determined, the boys appear to range as young as five years old to teenagers.

Of the CP files, there were 18 videos of [REDACTED] Other identified victims in the CP files are players from the Little League World Series (LLWS), [REDACTED] The phone contained nine thumbnail CP images of [REDACTED] and two thumbnail CP images of [REDACTED]

The phone also contained a total of 2,500 images and 900 videos of child erotica. The files of child erotica contained what appear to be minors, engaged in sexual activity, to include anal sex, oral sex, masturbation, and

exposing their genitals, but the age could not be determined. Although the boys depicted in these files appear to be young, it is unclear if they are minors. The other files of child erotica include depictions of minors boys intended to illicit sexual fantasy, such as minors clothed or semi-nude without visible genitals.

Chats on the phone were from Facebook Messenger, Grindr, Instagram, Snapchat, Telegram, and TextNow applications. Among the chats, STRANGE had multiple accounts specifically used to talk to minor boys. LESLIEHANS20 and ALEXANDRIA ZAMPINI are two examples of usernames he used to impersonate minor girls in attempt to bait minor boys for nude images or videos. The phone contained Instagram chats between STRANGE and the LLWS players, to include [REDACTED] Instagram chats between STRANGE and WOLF's student, [REDACTED] were also located on the phone, in which [REDACTED] and STRANGE exchange TikTok and Snapchat usernames.

A preliminary review of the phone determined that STRANGE had chats with others via Telegram about different minors he is baiting and to trade CP. Due to the fact that the phone was processed while disconnected from all networks, the content of many of the image and video files are not viewable and show up in that chat as "empty file." The context of the chat conversations indicate these files would have been CP. Investigations involving the other chat participants found on this phone is ongoing.

Also found on the phone were images of STRANGE's co-conspirator, ANDREW WOLF.

Reports generated from the review of this phone will be maintained in the case file.
